

Safeguarding Children, Young People & Vulnerable Adults

Useful Contacts

September 2018

Many thousands of children, young people and vulnerable adults come on to church premises every week, to take part in all kinds of activities. The overwhelming majority of individuals enjoy positive experiences because of the many people who give their time to work with and care for them.

This booklet is part of a wider package of active safeguarding policies and good practice measures. Its very existence signals the importance that the Methodist Churches of this District place on safeguarding. Even when all safeguards are put into place, however, we should all still be alert to the possibility of risk of abuse. These measures equip the church community to work together to prevent such incidents taking place. Also to respond rapidly if there is ever any concern that there may have been inappropriate, abusive behaviour on the part of a young person or an adult towards a child, young person or adult whilst on church premises or engaged in church activity. Sometimes abuse which has taken place outside the Church may come to the notice of church members. If there is a concern about a child, young person or vulnerable adult then everyone needs to know what action to take to protect their welfare.

The District has a Safeguarding Officer and a Safeguarding Team of people with professional backgrounds who have wide experience in dealing with concerns about safeguarding. They are available for training, help, information and policy development. If you are involved in a situation where you are concerned about the welfare of a child or vulnerable adult then please feel free to contact them and discuss your concerns.

This booklet also provides Children's Services, Local Authority contact details and other agencies that might be helpful for advice, information and referrals.
